

VELA SERIES SALT CHLORINE GENERATOR

PROMAX VELA series salt chlorine generator

is very simple to use. Just add salt to the pool to quickly and stably generate the chlorine required for pool water disinfection. It not only makes pool water clearer, safer, and more comfortable, but you can avoid all the disadvantages of traditional chlorine disinfection (storage space, odor, red eye, itchy skin, bleached clothing, etc).

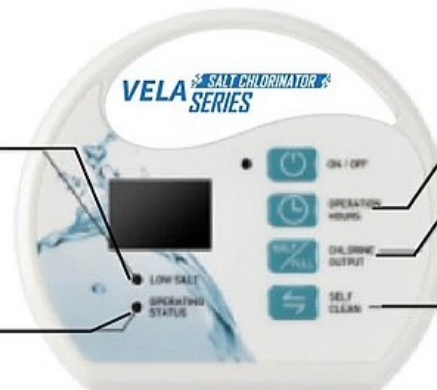

1.5" UNION

2" UNION

Salinity monitoring function, when the salinity is too low, the chlorinator will send an alarm with error code to ensure effective disinfection of the swimming pool.

Operating status

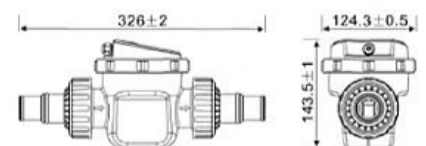

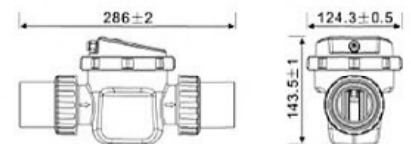

Working time can be adjusted according to actual need, energy saving.

Adjustable chlorine output: HALF and FULL.

Self clean function by reversing the polarity automatically, The self-cleaning cycling time is optional: 4/8/12 hours, which can prolong the lifetime of titanium plate.

Features:

- Size suitable for installation and use in small space.
- Easy installation, simple operation and maintenance.
- IPX5, can be used outdoors.
- Can be directly connected with PVC union (1.5"/50MM) or flexible hose (3/8MM)
- Water flow sensor to detect no flow or inadequate water flow.
- Low and High water temperature sensor. When the water temperature is below 10°C or above 45°C, there will be an error with alarm and the unit stops working.
- One-key restore default setting function.
- Each time the chlorinator restarts, it can automatically initiate the last work status.
- Audio and visual alarm.
- Connection size: 1.5"/50mm unions as standard, optional 32/38mm reducer fittings for flexible hose.
